## It Is What You Want It To Be

When you put an orchestra record  
on the New Edison Diamond Amberola,  
the Amberola becomes an orchestra.

When you put on a vocal record, it  
becomes a singer.

When you put on a violin, piano,  
harp or cornet record, it becomes the instrument itself.

So real, so "life-like" is the reproduction that it is  
hard to believe that the artist is not actually in the room.

And no needles are required to play

### The NEW EDISON DIAMOND AMBEROLA

The stylus (reproducer point) of the Amberola  
is a genuine diamond that never wears out. Neither  
do you have to worry about injuring expensive  
records, because

are almost unbreakable and nearly  
unbreakable; and there are more than  
3,000 titles to choose from.

## Bang! Bang!

With one tremendous sweep local subscribers will this  
week end go over the top with a bang for the Victory Loan.  
Never in the history of The Pass has an enterprise been  
crowned with such success. Several weeks ago it was an-  
nounced that the objective set for this district was \$250,000,  
and canvassers started out with a determination of setting a  
pace for the rest of the province. In this they have been  
successful, for today we doubt if any other district has so far  
over-reached its allotment. We understand that the town of  
Coleman has won a flag and seven crowns, and hopes to se-  
cure the eighth crown before the close of the campaign.  
They have already approached the \$200,000 mark and are  
out to reach the total Pass objective themselves. Coleman's  
effort is probably without a parallel for a town of its size, for  
its subscription will represent over \$100 per head, for every  
man, woman and child of its population. Blairmore set out  
to raise \$75,000, and is now clearing the \$150,000 mark with  
four crowns on its flag. A great impetus to subscriptions  
was effected through the receipt of a message from the Italian  
consul, advising that as there was little chance of any  
Italians securing passage to Italy for many months to come,  
they had better invest their savings in the Victory Loan. As  
a result a large amount of money that had been set aside for  
investment in Italy has been turned into the Canadian treas-  
ury. One of the largest Italian subscriptions was made by  
Councillor Michel Rosse, whose purchases amount to about  
\$6,500. We understand that at Hillcrest since the message  
was received from the consul, some two hundred Italians  
have invested in Victory Bonds, while similar reports come  
from other camps. The little town of Frank, which for years  
has experienced more than its share of hard luck, undertook  
to raise \$7,500. Today Mr. Naylor reports for over \$14,000.

Practically all nationalities are represented by local sub-  
scriptions, including English, Canadian, Russian, American,  
Austrian, German, Swede, Norwegian, Swiss, Italian, Dutch,  
Finnish, French, Hungarian, Syrian, Belgian, Bohemian and  
last but not least the Irish.

The Pass executive, of which Mr. Whiteside, of Cole-  
man is chairman, Mr. J. H. Scott, of Blairmore, is sec-  
retary, and Mr. Hornbrook, of Calgary, is organizer, are to be  
congratulated upon the success that has crowned their ef-  
forts, due to a very large extent to the efficiency of the teams  
working under their guidance.

## The Power of a Ten-Dollar Bill

CONSIDER the power of a Ten Dollar Bill when it is spent, at  
home. It is like magic. It circulates. It pays off a hundred  
obligations. It creates business and puts people to work in  
our community. But the ten-dollar bill that is sent away to the out-  
town house does nothing for our town. It becomes dead to us. It is  
out of commission forever as far as our town is concerned. We never  
see it again. Let us, then, give power to the money we spend. Let us  
remember that our best investment is that power-money that we spend  
at home.

## Germany Accepts Allies' Peace Terms

Following are a few of the terms submitted by the Allies and ac-  
cepted by Germany:

1. The abandonment by Germany of the treaties of Bucharest and  
Brest-Litovsk. Cessation of operations by land and in the air six months  
after the signing of the armistice.
2. Immediate evacuation of immediate countries: Belgium, Lux-  
embourg, France, Alsace-Lorraine, so ordered as to be completed within  
fourteen days from the signing of the armistice. German troops which  
have not left the above-mentioned territories within the period fixed  
will become prisoners of war. Occupation by the Allied and United  
States forces jointly will keep pace with evacuation in these areas. All  
movements of evacuation and occupation will be regulated in accordance  
with a note annexed to the stated terms.
3. Repatriation beginning at once and to be completed within 14  
days of all inhabitants of the countries above mentioned, including  
hostages and persons under trial or convicted.
4. Surrender in good condition of the German armies of the fol-  
lowing equipment: Five thousand guns (2,500 heavy and 2,500 field),  
thirty thousand machine guns, three thousand minewarfare, two thousand  
aeroplanes (fighters, bombers) to be delivered in situ to the Allies  
and the United States troops in accordance with the detailed conditions  
laid down in the annexed note.
5. Evacuation by the German armies of the countries on the left  
bank of the Rhine. These countries to be administered by the local au-  
thorities under the control of the Allied and United States armies of  
occupation. The occupation of these territories will be determined by  
Allied and United States garrisons holding the principal crossings of  
the Rhine, Mayen, Cologne, Cologne, together with bridgeheads at  
these points. A neutral zone shall be reserved on the right bank of the  
Rhine between the stream and a line drawn parallel to the forty kilo-  
meters to the east from the frontier of Holland to the parallel of Garmisch  
and as far as practicable, a distance of thirty kilometers from the east  
of the stream from this parallel upon the Swiss frontier.
6. In all territory evacuated by the enemy there shall be no evac-

**Could Play Organ Better Than Trumpet**

There is an amusing story told about Sir Frederick Bridge, the famous organist of Westminster Abbey, and of how he was once guilty of making a "row" within the edifice. It was at the time of the coronation of King George V. One of the rehearsals to take place was that of the state trumpeters, who greeted their fastidiously within the building. During their temporary absence Sir Frederick Bridge thought he would see what kind of a machine he could produce, and, borrowing one of the trumpets, set about making such discordant sounds that the circle of the works came up and expostulated: "If that row continues," he said, "my workmen threaten to go on strike, and if they do the coronation will have to be postponed." Sir Frederick hurriedly put down the trumpet, and smoothed the workmen by playing a selection on the organ.

**Spanish Imports Decrease**

The Official Gazette publishes statistics showing a marked decrease in Spain's imports and exports for the seven months of the year, not as compared to 1916. The decrease for imports of raw materials and manufactured goods and foodstuffs was from \$39,000,000 pesetas to \$28,000,000 pesetas. Exports decreased during the same period from \$60,000,000 to \$50,000,000 pesetas.

## With Darky Regiments At the Front

Unequalled as Musicians and Vaudeville Artists

Two days we stayed on there, and they were two days of superior variety of continuous black-face vaudeville. There was the evening when for our benefit the men organized an impromptu concert featuring a quartette, that would do anything any man's burlesque circuit, and a troupe of back-and-wing dancers whose equals it would be hard to find on the Big Time. There was the next evening when the band of forty pieces serenaded us. I think money this must be the best regimental band in our army. Certainly it is the best one I have heard in Europe during this war. On parade when it played the Memphis Blues the men did not march; the music poured in at their ears and ran down to their heels, and instead of marching they literally danced their way along. As for the dwellers of the French towns in which this regiment has been from time to time quartered, they are so fairly go mad when some alluring, compelling, ragtime tune is played with that richness of syncopated melody in which only the black men can achieve, and as the regiment has moved on, more than once it has been hard to keep the white inhabitants of the village that the band was quitting from moving on with it. I live to be a hundred and one. I shall never forget the second night, which was a night of a splendid, flawless full moon, when the regimental staff on the terrace lawn of the chief house in a half-deserted town, five miles back from the trenches, and down below us in the main street the band played plantation and hundreds of negro soldiers joined in and sang the words. Behind the masses of upturned faces was a ring of white ones where the remaining natives of the place clustered, with their heads wagging in time to the tune.

And when the band got to Way Down Upon the Suwannee River, I wanted to cry, and I think the drum major, who likewise had a splendid baritone voice, sang, as an interpolated number, "Johnnie, come home from England, and then in excellent French, the villagers openly cried; and an elderly peasant, heavily veiled with the tears of a joyous and thankful enthusiasm running down his bearded cheeks, was with difficulty restrained from throwing his arms about the soloist and kissing him—Irvin Cobb, in the Saturday Evening Post.

**The Missouri Mule Abroad**

"Long and patient but very efficient on the part of a kind-spirited driver to induce a mule, drawing what appears to be a load of laundry, through the gateway of a local hospital afforded considerable amusement to the on-lookers. The mule would do anything but pass through the gateway."

"Want any 'clap, chum'?" shouted one of the boys in blue to the driver, as he rested for a moment.

"No," replied the driver, "but I'd like to know how Noah got to these blighters into the Ark?"—Tit-Bits.

**Aeroplane Spruce**

**B. C. Supplies Best Wing Beams in the World**

It is a long journey from British Columbia to the battlefields of Europe, and from the stolid trees, for centuries rooted immovably in the ground, to the aeroplane dashing swooping, plunging through the clouds—the very quintessence of swiftness and grace.

But such is the journey and such the evolution of the great spruce that grows in the western forests. Scientists have given it the name of Picea sitchensis. It has five other names, the latest of which is aeroplane spruce. The others are silver, tidewater, Sitka and grand spruce. The full grown tree is from one hundred and fifty to two hundred feet high and from five to fifteen feet in diameter.

"Although the trees rise to a great height and are great of grain, they ripen almost imperceptibly. Their resinous and elastic demands of aeroplane construction. For the wing beams of the aeroplane, straight sticks of timber from sixteen feet to thirty feet long are required, and this tree with so little taper, to make the grain run crosswise, supplies the best wing beams in the world. It is also very tough and very light—and toughness and lightness are regularities in aeroplane timber. A cubic foot of the wood weighs twenty-five pounds."

Only about twenty per cent. of the whole log is cut up, but the timber brings the enormous price of one hundred and twenty-five dollars a thousand board feet, although as late as a year ago it sold for ordinary commercial purposes for about fourteen dollars. Only about three hundred and fifty out of every twenty-five hundred feet pass the final tests at the aeroplane factories. About one hundred and twenty-five feet are used in making the average machine.

A recent examination of a captured German aeroplane revealed the fact that the enemy is short of good aeroplane material for wing beams. With Canada and the United States possessed of tens of thousands of acres covered with these grand spruces, the allies have an advantage that is helping them to hold the supremacy of the air.

## British Officer's Thoughtful Will

Left Bulk of His Estate to War Sufferers

Captain St. George Harcourt, of Lord's, died on the 10th of London. He was the son of Lord's, and nephew of Lord Northcliffe, who died from wounds received in the battle of Cambrai on February 12, aged twenty-three years, leaving a wife and two children. He was granted to his father. The testator gives:

\$5,000 to Irish Guardsmen disabled in the war or in need of assistance, to be spent as directed by the lieutenant colonel commanding. \$5,000 to the executor for the education of sons whose fathers have been killed in the war.

\$5,000 to help men disabled in the war. \$250 each to his old friends and servants. \$100 to his friends, Gibbons, Peggs, and Tanner, his soldier servant, Private Gorbey, and Sergeant Henry. He also left a small N.C.O.'s of his company. The will made on active service on sundry small pieces of paper, partly in pencil and partly in ink, is dated November 22, 1917.

## CROSS, SICKLY BABIES

Sickly babies—those who are cross and fretful; whose little stomachs and bowels are out of order; who suffer from indigestion, indigestion, or who are any other of the minor ills of the ones can be promptly cured by Dr. Williams' Pink Pills. Concerning Mrs. Jean Paradis, St. Bruno, Que., writes: "My baby was very sick and vomited all his food. He was cross and cried night and day and nothing helped him till I began using Dr. Williams' Pink Pills. They soon set him right and now he is a fat, healthy boy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

**Only a Miracle Could Save Germany Now**

"I hope the time will not be long coming when we will talk terms of peace to the royal palaces in Berlin," said Right Hon. W. F. Massey, premier of New Zealand, at a luncheon treated him at "Toronto by the civic and provincial authorities. We are sure of the result now, unless some miracle intervenes between Germany and I don't think that is likely."—Victor.

"Now is the time when we are full of admiration for each other, and bring in a patriotic policy which will keep the nations of the empire together for all time," said Mr. Massey.

Referring to the war cabinet he had recently attended, he said: "When the war ends it will no longer be a war cabinet. It will be an imperial cabinet, in which all the Dominions will have a voice. Before the war we were bound only by sentiment. But the future demands something more definite."

"I think we have come to the time when each part of the empire will give preference to goods imported from any other part. This will do much to build up the empire. Some politicians think the empire is too unwieldy already. I don't agree with that."

"No one longs for peace more than I do, but I don't think this is the last war. The crimes which have been committed in Belgium prove that human nature has not made much progress in the last 5,000 years, and until human nature is improved there can be no lasting peace. It is our duty to keep the British empire united, so as to make it strong in case of another war."

We are partners now with the Mother Country. Each nation must be allowed to handle its own affairs, and each must look for itself, but in imperial affairs each country must work for the empire."

**Must Keep On Going**

**Allies Must Force Their Way Into Germany**

"Sounding a keynote of 'no negotiation without occupation' James W. Gerard, former United States ambassador to Germany, declared there must be no thought of peace until troops of the entente have forced their way into German territory. Mr. Gerard was speaking for the fourth Liberty Loan at the San Francisco commercial club."

There must be no negotiation without occupation," he said. "The United States and her allies must force their way well into enemy territory, despite all attempts at peace and must keep on going until Germany bows to their will."

We must not allow Germany to increase her manpower. It would be easy for her to Germanize the peoples of Estonia, Latvia, and Poland. Fifteen per cent. of the population in the Baltic provinces is made of Germans who exercise a complete influence over the ignorant population."

**Shoes for Hire**

"Shoes wanted on hire" is the latest advertisement to appear in the German papers. Some of the advertisements are inserted by "Gentlemen wishing to hire shoes for a certain period, owing to the necessity of going out of town on business trips." They offer from \$2 to \$4 a week, according to the age of the shoes.

## Rabbit Replaced Wallaby

Red-brown Quadruped Was Grass Pest

Before the advent of the rabbit and the fox in Australia the rock-wallaby made its home among the cliffs bordering the Snowy river, where it passes through southern Monaro (N. S. W.) literally in thousands. The little red-brown quadruped was then becoming a grass pest and as his skin was then worth only 4 cents the pest hunter didn't bother much about him. But an interested merchant some years ago put a premium on the skins, and a writer and a mate started out one winter morning with about two inches of frost on the ground and a tree powdered with hoar frost, for the wallaby ground. The artillery consisted of two men and a single muzzle-loader. (The breech-loader was then a rarity on Monaro.) By noon the hunters had downed over 60 wallabies. The beasts were so numerous in some quarters that two men occasionally fell to a single shot. Soon after that the pest-trader scented profit, and the work of extermination began. Now these cliffs are silent and deserted, save for Reynard and the eternal rabbit, which crops the wallaby pastures close and from this country will never be exterminated.

## Why Animals Feel Fear

Only Felt by Animals Which Depend for Self-Defence in Flight

Fear is experienced, only by animals which depend for self-defence and species preservation upon flight, according to Dr. George W. Cline. The skunk, for example, whose chief means of protection is its odor, the weasels, defended by its quills, the snake, which repels its enemies by its venom, the turtle, which is securely encased in its shell, the lion and elephant, secure in their superior strength—these all exhibit little if any fear.

On the other hand, the rabbit, the bird, the deer, the horse, the antelope, the monkey, and man—these are the animals which pre-eminently exhibit fear and an irrefragable desire to flee from danger.

Fear is the mental part of the reaction by which certain types of animals preserve themselves, and it is most interesting in man, who has recently changed from a fleeing animal into a fighting one, and who undergoes often agonizing inner struggles between the newly acquired instinct to fight and the age old instinct to run away.

**Paulines in Preparation.**—Unlike any other stomach regulator, Pauline's Vegetable Pills are the result of long study of vegetable compounds calculated to stimulate the stomachic functions and maintain them at the normal condition. Years of use have proved their faithful character and established their excellent reputation. And this reputation they have maintained for years and will continue to maintain, for these pills must always stand at the head of the list of standard preparations.

**Has Two Independence Days**

Now that it has become a popular custom among some of the allies to celebrate another's Independence Day, the calendar seems to be fairly bristling with such occasions. Who would have thought, however, that there was one country on the American continent, Ecuador, which actually boasts of two national days? These Independence Days of the little republic are the 10th of August and the 9th of October, and mark two determined revolutions, the first of which failed, only to spur the patriots, revolting against Spanish domination, to shake it off, a few months later, forever.

Havelock Wilson Says French Will Aid in Punishing Germans for Crimes

J. Havelock Wilson, president of the International Seamen's Union, the leader of the seamen of Great Britain, has made a statement to The Mail on the boycotting of Germany after the war.

"No treaty by the allied governments," he said, "could punish Germany as she deserves. The allied peoples themselves should inflict on the Germans full punishment for their awful crimes. British territory has not suffered, but the British have sworn to avenge your ruined provinces. The British count by thousands seamen and civilians who have been murdered. The French will help us to avenge our dead after the war."

One of the commonest complaints of infants is worms, and the most effective way to cure this trouble is Mother Graves' Worm Extremator.

**Chance for Saving Sugar**

Save the waste. 12,000,000 cups of tea, coffee and cocoa are used daily in Canada. If even an average of half a teaspoonful of sugar per cup is left undissolved at the bottom of cups there is saved the waste of 12,000,000 lbs. of sugar daily!

Use no more sugar than you need and stir your beverage until the sugar is entirely dissolved.

It is estimated that about one-third of all sugar consumed in this country is used in tea and coffee. Think it over—how much is in your home? Is there a chance for saving?

### Appreciation of Work of Press

The following letters from Sir  
Thomas White, minister of finance,  
and Mr. Stead, publicity chairman  
of the south provincial Victory  
Loan campaign, speak for them-  
selves:

To the Publishers and Editors  
of the Press of Canada.

I desire personally and on be-  
half of the Government to express  
our most earnest thanks to the  
press of Canada for the splendid  
support given so freely and gener-  
ously to the Victory Loan. This  
fine patriotic service is the more  
deeply appreciated by reason of  
knowledge of the many difficulties  
which have been imposed upon the  
press by war conditions and of the  
disorganization of staff in so many  
parts of the Dominion owing to the  
prevailing epidemic. I feel that  
the success of the Loan will be in a  
large measure attributable to the  
invaluable assistance of the press.

W. T. WHITE.

Calgary, Alta.,

W. J. Bartlett,

Blairmore, Alta.

This week's issue of your paper  
will be the last opportunity to urge  
your readers to buy more Victory  
Bonds. With just peace assured  
by splendid heroism of our men  
overseas, we at home must not  
weaken, but redouble our efforts  
and go over the top with all the  
money Canada needs before Satur-  
day night. Please accept our  
thanks and appreciation for splen-  
did assistance rendered by your  
paper.

### The Editor

Archib McCollum says that most  
anyone can be an editor. All an  
editor has to do is to sit at a desk,  
six days of the week, four weeks of  
the month, and twelve months of  
the year, and edit such stuff as this:

Mrs. Smith, of Blairmore, let a  
can-opener slip and cut herself in  
the pantry.

Miss Beard, while milking the  
hotel cow last week, was kicked  
just south of the corn crib.

A mischievous lad, of Frank,  
threw a stone and hit Mrs. Naylor  
in the alley last Thursday.

Danny Walker climbed on the  
roof of his house last week looking  
for a leak. He fell, striking him-  
self on the back porch.

While Ted Bayfield was escort-  
ing a peach home on Thursday  
night, a savage dog attacked and  
bit Bayfield on the public square.

Ralph Roscoe got good and mad  
and hit his poor old father on the  
gin barrel.

Chin Hing was playing with his  
big gray cat on Friday last, when  
it scratched him on the veranda.

### Mrs. Watts Goodwin Passes Away

The community of Bellevue  
was stirred this morning to  
learn of the death of Mrs.  
Watts Goodwin, one of the  
best known and most highly  
respected residents of that  
town. Mrs. Goodwin contracted  
influenza but a few days ago  
and the end came rather sud-  
denly. Mrs. Goodwin was but  
thirty-eight years of age. She  
leaves a husband and five chil-  
dren, the eldest of whom is fif-  
teen years of age. Her husband  
has been overseas for about  
three years, and was hoping  
soon to return home.

## OBITUARY

### Death of Jack Williams

Word has been received from  
England, announcing the death  
of Jack Williams, brother of  
Snook Williams, of Blairmore,  
and son of Mrs. J. Hadfield, of  
Culman, following a brief at-  
tack of influenza. Jack was  
twenty-seven years of age. He  
enlisted with the formation of  
the 13th O. M. R. at Pincher  
Creek, being at that time a res-  
ident of Lethbridge. After go-  
ing over to England he made  
several transfers and eventu-  
ally crossed over to France, and  
following the battles of Vimy  
Ridge he was admitted into a  
base hospital suffering from  
wounds received from an air  
bomb. He was later taken  
over to England, where he re-  
mained in hospital for some  
months and recovered, but failed  
to pass medical examination  
for further service in France.  
He was retained in England as  
a drill instructor, with the rank  
of company quarter-master ser-  
geant.

Jack spent sixteen months in  
the trenches before being  
wounded in May of last year.  
His relatives here had been  
looking forward to his early re-  
turn to Canada, and are deeply  
grieved over the news of his  
death.

Jack became popular in The  
Pass football circles a few years  
ago, being one of the stars of  
this district.

### Death of J. K. McIntyre

The death occurred at Leth-  
bridge on Monday afternoon,  
from influenza, of John K. Mc-  
Intyre, at the age of 33 years.  
Mr. McIntyre was well known  
in The Pass, where he had for  
years been employed as brake-  
man on the C. P. R. He mar-  
ried a Miss McDonald, daugh-  
ter of Mr. Hugh McDonald,  
of Frank, and resided in  
Blairmore for several years.  
He leaves a wife and three  
small children to mourn the  
loss of a loving husband and  
father.

Interment took place at Leth-  
bridge on Thursday afternoon.

### Death of Mrs. J. Prentice

The death of Mrs. John Prentice  
occurred at Blairmore on  
Thursday morning. For several  
months the Prentice family  
had been residing at Drumheller,  
where Mr. Prentice had se-  
cured employment, shortly after  
the closing of operations at  
Frank. About two weeks ago  
Mrs. Prentice was called to  
attend the bedside of her eldest  
daughter, Mrs. Daniel Rees,  
who was very ill. About a  
week after her arrival here she  
was stricken with Spanish in-  
fluenza, which rapidly develop-  
ed into pneumonia. Seeing that  
her condition was fast becom-  
ing critical, her husband was  
notified by wire and arrived in  
Blairmore on Wednesday morn-  
ing. As all other efforts had  
failed, the pulmotor was ap-  
plied on Wednesday afternoon,  
but she failed to revive and the  
spark of life fled at an early  
hour on Thursday morning.

Mrs. Prentice was well-known  
throughout The Pass and Pin-  
cher Creek districts. For a  
number of years the family re-  
sided at Frank, prior to which  
they made their home near  
Beaver Mines.

Mrs. Prentice is survived by  
her husband and five children,  
to whom the sympathy of the  
people of the district is extend-  
ed.

Interment took place at the  
Blairmore Protestant cemetery  
this afternoon, the Rev. W. T.  
Young officiating.

### Death of Mr. Holloppa

During the past eight days a  
double tragedy has entered the

home of the Holloppa family  
on Cement Street east, leaving  
five small children and a mar-  
ried daughter to mourn the loss  
of both parents. Last week we  
announced the death of Mrs.  
Holloppa, which occurred fol-  
lowing a few days' illness with  
influenza and pneumonia. To-  
day we chronicle the death of  
her husband, due to blood-  
poison, influenza and complica-  
tions.

Six children are left, with no  
one but the charitably disposed  
to care for them. The family  
came to this country, direct  
from Finland, but a few months  
ago.

The remains of Mr. Holloppa  
will be laid to rest beside those  
of his wife in the Blairmore  
Protestant cemetery on Satur-  
day afternoon, at which Rev.  
W. T. Young will officiate.

## Jack Canuck—Storekeeper

IN Manitoba, Saskatche-  
wan and Alberta Jack  
Canuck is running an im-  
mense produce business  
these days.

He has millions of hush-  
els of grain; boat loads of  
flour; vast herds of cattle,  
sheep and pigs; butter,  
cheese and poultry and  
other food supplies by the  
trainload.

The customers at his  
counter are Great Britain,  
France and Italy, whose  
credit is unquestionable,  
but who are just now  
short of cash. So Jack Can-  
uck in order to sell his  
goods must give his cus-  
tomers credit until the  
war is won.

It is just the same situa-  
tion that confronts every

storekeeper who gives  
farmers credit until their  
crops are harvested.

So Jack Canuck borrows  
money on Victory Bonds  
in order to give credit to  
his customers.

He pays good interest  
on Victory Bonds. He off-  
ers as security all Canada and  
everything contained therein.

By issuing Victory Bonds Jack  
Canuck keeps his big business  
going—and all the money he bor-  
rows from Canadians he spends  
in Canada.

We must buy Victory Bonds  
in order that the business of Jack  
Canuck shall remain prosperous  
and healthy.

We must buy Victory Bonds  
in order that our brave and gal-  
lant army shall have food, cloth-  
ing and ammunition to win com-  
plete Victory over the enemies of  
our country.

### His Prayer Was Answered

Rev. J. Wynne Jones, of Bal-  
timore, prayed in a sort of Billy  
Sunday way:

"Lord, if these fellows here in  
town close up all the churches on  
Sunday, I hope I will not live to  
see the day when Thy place is  
shut!"

Forty-five minutes later Dr. Jones  
lay dead, a victim of heart failure.

Dr. Jones was a pastor in Bal-  
timore for more than forty years. In  
that time he built up one of the  
largest acquaintances any pastor  
has ever built in Baltimore. He  
founded the old Abbott Memorial  
Presbyterian church. Dr. Jones  
looked like President McKinley.  
He had the same nose, the same  
square mouth, and the same round,  
forehead.

their peace demands say nothing  
at all about syphilis baby-killers.

## JACKING THE KAISER

In the good old western style.

## Wise Ones Are Buying Victory Bonds

The people of southern Alberta know how to make good use of an opportunity when it is put before them. This is proven by the enormous number of subscriptions that are being made to the Victory Loan, and this in spite of the fact that the organizations in many places have been very severely handicapped by illness, not only amongst the committees in charge of the work, but in the districts which they cover.

Every person who is buying a Victory Bond is doing a great deal of good. It is not a matter of interest and exempt from income taxation is not a favor. It is a business proposition, with the advantage all in favor of the buyer. And it is because they are doing business, and not because they are doing favors to any one except themselves, that our people are buying to their capacity. And the more attractive the proposition.

The canvassers who are bringing in the best results are those who make the campaign slogan "invest instead of fight." Everything points to southern Alberta taking the ultimate objective of \$100,000,000 by the time the campaign closes on November 16, for before the campaign was half way through, the amounts subscribed had already gone over six million dollars. It is unfortunate that some people will be apt to miss the chance of getting in their subscriptions owing to illness in their families, but canvassers are taking the best possible care they can to give everybody a chance. Up until Thursday of this week the following places have won flags: Blainville, flag and crown; Crossfield flag and crown; Jenner, flag and seven crowns; Clearwater, flag and three crowns; Magna, flag; Okotoks, flag; Bow Island, flag; Hinton,

flag; Calgary, flag and one crown; Blackie, flag; Blainville, flag and crown; Redcliff, flag and crown; Coleman, flag and three crowns; Lethbridge, flag and two crowns; Commerce, flag; Monitor, flag; Brant, flag and three crowns; High River, flag; Custer, flag; Haskett, flag and crown; Coaldale, Germangay, Nanton, Gething had the proud distinction of being the first city to overtop the high objective and to win at Honor flag and three crowns. Very shortly after that news came in that the Crow's Nest Pass also passed the high objective. Coleman also gained a flag and three crowns, and Blainville a flag and one crown.

"A tiny little British Tommy, he was a very tiny chap brought in a big, burly Prussian officer and, as they stood together, it was interesting to see the little way in which this Prussian officer looked down upon the English Tommy. He looked down upon him from every point of view—nationally, physically, socially, and intellectually, and every other way, until you wondered how there was anything left of that little Tommy. He said to him at last, very disdainfully: 'You fight for money. Just fancy, you homies, fancy a man telling a British Tommy that he fights for money—and you know how much the poor fellow gets? Twenty-five cents a day; he fights and dies for 25 cents a day—when he gets it there are all sorts of deductions: for insurance for fines (Tommy has a genius for fines), for all sorts of things, and if you look at the picture that remains, you know it is positively cruel to tell Tommy Atkins that he fights for money (laughter). Oh no, oh no Tommy Atkins fights for something else that is wonderful, splendid, and noble. Tommy Atkins does not fight for money. Tommy was equal to the occasion. He looked up at the big Prussian and he asked him what he fought for. 'I fight for honor,' said the Prussian. 'Ah, yes,' said Tommy, 'we are both fighting for what we haven't got.'

## The Bank will trust you

Perhaps you never had an account in a bank—maybe you've never done business in a bank—hardly even cashed a cheque in one. But—

that is no reason why you cannot go to a bank and borrow money to buy Victory Bonds.

If you are a steady, industrious, thrifty citizen, working and saving a part of your income, you are just the kind of person Canada's chartered banks stand ready to help to-day.

Any bank will lend you as much money as you can save during the next twelve months, with which to buy Victory Bonds.

All you have to do is to pay ten per cent. of the amount you want to buy and deposit the receipt for that ten per cent. in the bank.

The bank will lend you the 90 per cent. balance at 5½ per cent. interest and will give you a year to repay it, the interest you get on your bond being just the same as the bank charges you.

This is a fine opportunity for you to begin a real savings account, to make a first class investment and to help your country at the same time.

Why not see a banker to-day—he will tell you all about it and you will be glad of the advice and help he can give you.

## Bellevue Happenings

Miss Petrie returned home from  
Calgary on Wednesday.

The influenza epidemic seems to  
have taken a firm grip on Bellevue  
and a large number of cases are  
now reported.

G. Jordan received word from  
Ottawa on Wednesday, stating that  
his son Robert had sustained gun-  
shot wounds in the left leg.

The children of Bellevue have  
been celebrating ever since the  
good news arrived on Monday last.

A. Martell has moved his family  
over from Hillcrest.

Bob Lovitt spent a few days  
here this week.

James Cardie was down from  
Calgary the early part of the week  
on business.

Jack Brooks' family are all down  
with the flu.

We think the mark was over-  
stepped this week when Mr. Bar-  
less was fined for not wearing a  
mask in his little 6x6 private col-  
lecting office. If the party who in-  
sisted this case would turn his  
attention to the condition of cer-

tain shacks and back yards, he  
would be performing a duty that is  
required of him in connection with  
the present epidemic.

Some people seem inclined to  
condemn the local authorities for  
drastic measures taken to combat  
the Spanish influenza epidemic, by  
closing the town and otherwise en-  
forcing strict quarantine and isola-  
tion. They challenge proof that  
any benefit has been derived from  
such measures. Blainville is the  
only town in the Crow's Nest Pass  
in which timely and proper pre-  
cautions have been taken, and the  
only town in Alberta in which no  
more than 2 per cent. of the popu-  
lation have been affected by the  
disease.

## Can You See Defeat Coming?

Army's Reply to Austrian Peace Proposals—A Glimpse

A special correspondent with the British army, writes from the front:

When Austria's peace proposal became known here, I asked a high officer in a position to know what the sentiment was throughout the army in his opinion. He grinned.

I asked a private. He grinned.

Each said that Austria's move was "a private." He grinned.

"I don't see anything about Austria, but it's easy to see the fate Germany is in on this front. She's shipped, and she's sinking."

The general's view was slightly different. "We can't say yet that Germany is beaten," he said. "But she can see defeat coming. This is a military move, Germany's hope, so far as the British are concerned, is to prevent being compelled to evacuate the strong Hindenburg defences this winter."

"She wants to keep us in the barren, unsheltered ground this side of the line all winter. Maybe she has something to say worth listening to, but if we agree to listen we mustn't let her know it."

The other officer mentioned said: "We must read the Austrian offer in the light of the proposal of von Fayer, who certainly was authorized to speak in Germany's name. He talks of the front being a matter of time. We know now who will be the victor eventually. Therefore, you would have well presented victors to reach an agreement. It couldn't be done."

"Whatever happens we mustn't cease fighting until there is a reason."

Flourished in the Fifth Century B. C.

The Czechs are an ancient race. They were flourishing in Bohemia many centuries before Christ and they have always been noted for their progressive spirit, for their longings in the direction of liberalism and democracy, and above all for their industrial and commercial enterprise, of which they have been the center for the past 400 years the economic backbone of the Hapsburg monarchy.

They were independent, and therefore unfettered, until they foolishly elected Emperor Ferdinand of Austria as their ruler in 1526. Not only because he was married to the daughter and heiress of the last king of the dynasty of St. Wenceslaus, but also because he solemnly pledged himself to respect their national rights and liberties, and to accept that Ferdinand I failed to keep his promises. This is a peculiarity of the house of Hapsburg, which has led to bring ruin upon their empire.

Czechs are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Holloway's Corn Cure is available.

Soldiers are Fatalists

Practically all the soldiers become fatalists about death. You see men die through some incredible chance, and you see them escape by a miracle. Gradually you come to believe, as Tommy puts it, "When a shell comes over your head, it's your turn."

In the meantime, "Why worry? You never know your luck." That's the way they put it.

Last week the kaiser and his blood-thirsty gang took to reading the Scriptures. From Ezekiel, Chapter 25, they read: "Destruction cometh; and they shall seek peace; and there shall be none. The king shall mourn and the prince shall be clothed with desolation; and the hands of the people of the land shall be troubled. I will do unto them after their way, and according to their deeds will I judge them, and they shall know that I am the Lord."

Dr. Lovering, of Lethbridge, who was called before a J. P., charged with not complying with the wearing of masks, entered a strong protest, claiming that the wearing of masks was absolutely unsanitary, doing far more harm than good. He said that there were a lot of other directions in which the police might turn their activity. Dr. Lovering was fined \$1.00 and costs. L. K. Klein returned to Weyburn, Sask., on Sunday last.

Mr. John Prentice and family desire to express their sincere thanks to the many kind friends in Blairmore and Frank for assistance during the illness of Mrs. Prentice, and for the many expressions of sympathy extended to them in their bereavement.

E. Pick is a Spanish flu patient at the Eighth Avenue isolation hospital.

Church supporters are reminded that while public services are permissible, owing to the epidemic the institutions must be kept going from a financial standpoint, and the treasurers are desirous that subscriptions be handed in regularly and as liberally as possible.

An example of how some people feel disposed to display their patriotism was given at Hillcrest when a young lady asked her employer for a holiday in celebration of the end of the great war, and the return of peace. Her request was not granted, and instead she was presented with her time check, which naturally conveyed the information that her services were no longer required. Now that practically all means imaginable have been used to hasten the end of kaiserdom in Germany, it appears that there is some cleaning up to be done at home.

## How Many Crowns for Your Honor Flag?

Of course every city, town and district will earn its Honor Flag.

But how about the crowns?

For every twenty-five per cent. in excess of its quota, each city, town and district will be entitled to add a crown to its flag.

Can you do fifty per cent. better than your quota—that means two crowns for your Honor Flag.

But double your quota and it means four crowns.

Hang a Flag in your hall, that for years to come will show that your city, town or district did better than well—
